The mission of **Greater Lawrence Family Health Center** is to improve and maintain the health of individuals and families in the Merrimack Valley by providing a network of high quality, comprehensive healthcare services and by training healthcare professionals to respond to the needs of a culturally diverse population.

As part of that mission, we offer a **Mobile Health Center & Shelter Program** for the homeless members of our community so that they may receive the same quality health care given to our patients. We couldn't do it, however, without establishing partnerships with great organizations like yours.

GLFHC's Mobile Health Center, which travels the Merrimack Valley, treating the underserved in locations like yours.

When you partner with us, you directly impact the lives of the homeless community in the Merrimack Valley by giving them one more touchpoint at which they can receive the critical health care they need.

The interior of the Mobile Health Center has two exam rooms where our clinicians treat homeless patients.

Services offered by our program include:

- Primary Health Care
- Urgent Care
- General Health Screenings
- Family Planning
- Wound Care
- Immunizations
- Insurance Enrollment Assistance
- Referrals to resources such as substance abuse treatment

Partner with Greater Lawrence Family Health Center today and help make a big difference for those who need it most in your community!
