

Charitable Giving at Work: SBHC Care Packages

Greater Lawrence Family Health Center's Access to Care Fund came largely from the generous donations of the health center's staff. The External Relations team put the funds to use by creating small "care package" bags for kids at the School-Based Health Centers at Lawrence High and Greater Lawrence Technical School.

The care package bags will help children who might lack access to resources that will help them with hygienic activities like keeping their teeth clean, their breath fresh and their hands sanitized to prevent illness. The bags have all the useful basics: a toothbrush, Tic Tacs or cough drops, deodorant and hand sanitizer.
