

Should you visit GLFHC or the emergency room? When you're not feeling well, know where to go:

If you're having any of these symptoms...

**Back pain
Cough
Cut or scrape
Earache
Eye irritation
Fever**

Mild asthma or allergy symptoms

**Sinus pain
Sore throat
Sprain or strain
Vomiting**

If you're having any of these symptoms...

**Breathing difficulty
Chest pain
Choking
Confusion
Coughing up blood
Face or limb numbness
Severe bleeding
Sudden vision loss,
slurred speech or
face droop**

...come see your primary care provider at

Available anytime GLFHC is open:
- Urgent care appointments
- Minor wound care
- Same-day prescriptions
- Laboratory services

GLFHC patients who need an urgent care appointment can request one by calling the health center's main line at (978) 686-0090. Night and weekend appointments are available.

...go to the emergency room at

or

Other Hospital

After a visit to Lawrence General Hospital, medical records from GLFHC patients are made automatically accessible to their primary care provider so they can follow up and continue care as needed.

Patients who go to other hospitals to receive ER services may experience a delay in follow up with their primary care provider, and medical records from other hospitals may not transfer automatically to their PCP.
