

# Should you visit GLFHC or the emergency room? When your child isn't feeling well, know where to go:

If your child is having any of these symptoms...

- Back pain
- Cough
- Cut or scrape
- Earache
- Eye irritation
- Headache
- Sinus pain
- Sniffing or sneezing
- Sore throat
- Stomach pain
- Sprain or strain
- Vomiting

If your child is having any of these symptoms...

- Chest pain
- Choking
- Confusion
- Coughing up blood
- Face or limb numbness
- Fever in newborn under 1 month old

- Severe bleeding
- Turning blue

...come see their primary care provider at

- Available anytime GLFHC is open:
- Urgent care appointments
  - Minor wound care
  - Same-day prescriptions
  - Laboratory services

GLFHC patients who need an urgent care appointment can request one by calling the health center's main line at (978) 686-0090. Night and weekend appointments are available.

...come see their primary care provider at

Lawrence General Hospital provides in-network emergency services for My Care Family patients, and medical records are made automatically accessible to primary care providers so they can follow up and continue care as needed.

or

Otro Hospital

My Care Family patients who go to other hospitals to receive ER services may experience a delay in follow up with their primary care provider, and medical records from other hospitals may not transfer automatically to their PCP.
